City of Minneapolis FY 2003 Budget

How to Use This Document

The average budget book weighs four pounds. Printing of the book uses approximately a ream of paper per copy. But the budget book contents include some of the best sources of information on governmental activities as well as key financial information for policy makers and managers. The highlights below will give the reader hints on where to find information in this book.

The different sections of the budget book give different views of the financial information and the policies and processes which lead to that information:

Section 1: Table of Contents

The table of contents allows the user of the document to pinpoint the page of a particular department's budget presentation.

Section 2: Background Information

This section contains a community profile of the City of Minneapolis, including an overview of the City's history, population, and attractions. Descriptions of the City's form of government, annual budget process and performance measurement implementation follow.

Section 3: Financial Overview

The financial overview section summarizes the key decisions and financial issues addressed in this budget. This section includes key charts and graphs which depict the different portions of the City's budget. A chart of the Minneapolis Tax Rates and Levies appears in this section, as well as comparison of the Property Tax Rate and Utility Rate Comparison between 2002 and 2003. This section also contains a summary of major decisions in the adopted budget, including a summary of target strategies and new initiatives. A summary of the demands on the property tax levy and the elected officials actions to date are included in this section.

Section 4: Financial Policies

This section presents the major financial policies adopted by the City Council and Mayor. Descriptions of the major City funds are included in this section.

Section 5: Financial Plans

Financial plans for the City's major funds and business lines are found in this section of the budget book. The budget, a three-year forecast and two years of actual expenditures are displayed on the financial page. These plans include narratives which summarize what operations are run in the fund, historical financial performance, and 2002 expenses, revenues, transfers and debt service.

Section 6: Financial Schedules

These schedules summarize transfers, revenues by major category, expenditures by fund and agency, the CDBG program, and Full Time Employees (FTE's) by department.

Schedule One is a high level view of the City's funds, including changes to fund balance.

Schedule Two summarizes each fund's revenue sources.

Schedule Three lists the total agency budget in each fund – this is a quick reference to find the bottom line appropriation in a fund for a department.

Schedule Four outlines the allocations by grant for the Community Development Block Grant, Emergency Shelter Grant, Housing Opportunities for People with Aids, and the HOME program (all U.S. Department of Housing and Urban Development grants.) For information on the current consolidated plan for these grants, please see the consolidated plan publication available from Grants and Special Projects.

Schedule Five is a summary of all FTE's by department and agency.

Section 7: Capital Program

This section outlines the Adopted capital program, by funding source and in total. A narrative summarizes the program and presents operating cost impacts as described by those who applied for the funds.

Section 8: City Council Operating Departments

This section includes department financial summaries, including expenditures by type (i.e., salaries, benefits, contractual services and operating expense) and fund. The financial summaries also drill down to the division level, where applicable, with summaries by expenditure type. A report that summarizes the department's revenue estimate is also included. The department's positions are summarized.

The departments also prepare narrative summaries for their divisions, including primary businesses, service activities, and performance measures. These summaries are in various stages of development. These summaries include a brief financial overview of

the department prepared by Finance staff. The narrative summaries conclude with a summary of the department's target strategy, as applicable.

This is the largest section of the book because it provides the most detail on a department-by-department basis. For example, the Public Works Section provides financial information on how much the City spends on snow removal, street maintenance, and the like.

Section 9: Independent Boards and Agencies

This section provides information in a similar format to the City Council Operating Departments for the independent boards and agencies. The amounts included are generally those most recently approved by the board's elected body.

Section 10: Glossary

A short glossary is included for key financial and City terms. A more detailed glossary is available in the Red Book, published by the City Clerk's office.
